

Referring a case

Dear colleague,

Please email an ophthalmology referral form, referral letter and all relevant clinical history to your chosen veterinary centre.

Please provide a registration form and an information pack to your clients to read and fill before arriving for the appointment.

Please do not hesitate to contact me if you would like to discuss any ophthalmic cases.

If you require the information pack you can download it from www.vision-vet.co.uk

Once we have received the referral form, our reception will contact the owner to make an appointment.

Please advise the owner of the cost. If you require more information about the cost I will be more than happy to discuss it.

Emergency service

In case of emergency, please contact me for further advice when necessary.

As I am currently working in different veterinary centres you may be asked to advise the clients that they may need to travel to my other veterinary centre for emergency cases if I am unable to see them at ICR Veterinary Surgery.

Contact details

ICR Veterinary Surgery

44 Fountain Place
Loanhead
EH20 9DU

Which services do I offer?

Clinical and Medical Services Available

- Extensive ophthalmic examination
- Tonometry
- Ophthalmic ultrasonography
- Blood pressure measurement
- Medical management of ophthalmic conditions (examples include: episcleritis, uveitis, keratoconjunctivitis sicca, systemic hypertension)
- Surgical management of extra ocular conditions (examples include: treatment of indolent ulcers, conjunctival grafts for deep corneal ulcers, eyelid surgery, and management of ocular foreign bodies)
- Cryosurgery (examples include: distichiasis, eyelid masses etc.)
- Thermokeratoplasty
- Investigations of neuro-ophthalmological cases
- Ophthalmology telemedicine

For complex intraocular cases we can initially assess the case and directly refer the client to a tertiary referral ophthalmology practice for specific services listed below however we will continue providing the after care for your pet.

The services are as follow:

- Cataract surgeries by phacoemulsification with intraocular lens implantation
- Endolaser surgeries for Glaucoma, Melanomas and Retinal detachments
- Retinal surgeries
- Electroretinography
- MRI
- CT scan

If owner doesn't wish to travel to a tertiary practice we can arrange referral to a local ophthalmologist.

Referral Service Benefits

- Out of Hours Nursing staff
- Comprehensive, professional and personal veterinary care
- **24/7 Out of Hours and Emergency service**
- High quality clinical care
- Short waiting times for appointments
- Quick delivery of feedback to referring vets
- Telephone advice when required
